

PGWnet Noms de Plum
February 12, 2017

Many of those who belong to the PGWnet mailing list use a *nom de Plum* as their online signature. Noms on PGWnet are different from those on other P. G. Wodehouse forums, although there may be some overlap. This document provides a handy index to the names already in use.

Note: At the end of the first group of names is another, smaller one. These are the names of our fellow PGWnet members who have “Gone to Blandings” before us. Their noms are permanently retired, in fond memory of the people who used them.

Also, please don’t automatically assume that if a nom is not on this list, it is available for use. The most up-to-date list lives under the pillow of the Master of the List of Noms de Plum, George Bevan. Send your nom request to nmidkiff@earthlink.net and if your nom is available, you will receive an email verification that it is yours, along with a certificate suitable for framing.

Finally, if you should unsubscribe from PGWnet at some future date, please consider surrendering your nom so others may use it. There are only so many characters in the canon, you know!
